

INSTITUTE WILL
BEGIN TOMORROW

First Session of Annual Meeting for
Jackson County Farmers Will
be Held Friday Morning.

STRONG PROGRAM ARRANGED.

Several Prominent Speakers Will
Discuss Questions Which Are
of Much Interest.

The Jackson county farmers' institute will open a two days' session in Seymour Friday morning. All the arrangements have been completed for the opening session and it is expected that a large number of farmers from this part of the county will attend. The meetings here will close the institutes for the year in this county. According to the plan adopted by the officers the institutes are held in various parts of the county, and an opportunity is thus given to all the farmers who are interested in the work to attend at least one session.

This year an especial effort has been made to secure a large premium list and this will prove attractive. A large number of premiums have been offered upon various articles produced on the farm. The boys' and girls' contest will have a prominent place in the institute and a number of entries are expected in this class.

The meetings will be held in the Majestic Theatre until Saturday afternoon when the session will be called in the Society. On that afternoon "The House of a Thousand Candles" will give a matinee.

A strong program has been arranged and several well known speakers will give addresses at the various sessions. Besides the speakers who are sent out under the direction of Purdue University there will also be a number of local people on the program.

MARRIED.

HOPEWELL-KENNARD

A very pretty and impressive wedding was solemnized Wednesday afternoon at three o'clock at the home of Mr. and Mrs. A. C. Kennard, when they gave in marriage their daughter, Miss Glenn to Mr. Edward E. Hopewell.

At the appointed hour the bride and groom entered the beautifully decorated parlors to the strains of Mendelssohn's Wedding March played by Mrs. Cliff H. Weihooff.

After taking their places under a latticed arch of white satin ribbon and southern smilax, the strains of music were changed to the Flower Song, during which Dr. C. E. Asbury, pastor of the First M. E. church, pronounced the ceremony in a very beautiful and impressive manner, using the ring service.

The bride was lovely in a handsome gown of white satin and carried a shower bouquet of brides' roses.

The color scheme of green and white was carried out in the refreshments and decorations, the parlors being lighted with numerous green and white tapers.

Only the immediate relatives and a few invited friends witnessed the ceremony, the out-of-town guests being Mr. and Mrs. Joseph Hall, Miss Edna Hall, Mr. and Mrs. Willis Newsum, of Azalia, Miss Harriet Watson, Mr. and Mrs. John Rothrock and Mr. and Mrs. Cliff H. Weihooff and daughter, Florence of Columbus.

Mr. and Mrs. Hopewell left last evening on the 6:17 limited car for Columbus where they later took a Pennsylvania train enroute to their future home in Fergus, Falls, Minn., where Mr. Hopewell is instructor in the commercial department of the P. R. L. College.

Mr. and Mrs. Hopewell received many handsome presents from their friends.

Leg Amputated.

Albert Umphrey was taken to the city hospital Wednesday afternoon and his right leg was amputated above the knee. He has been suffering for some time with his limb which was affected with a tubercular disease. He rallied from the operation and is recovering nicely.

Installation.

Elsworth G. A. R. Post and the W. R. C. will have a public installation of officers at the hall Friday night.

POULTRY SHOW
IN FULL SWING

Over Three Hundred and Fifty Birds
Are on Exhibition.—Are Worth
Seeing.

HAS GOOD ATTENDANCE TODAY

Chickens, Geese, Ducks, Turkeys,
Pigeons and Dogs Ready For
Public's Admiration.

The poultry show which is being held under the auspices of the Southern Indiana Poultry Association on South Chestnut street is now in full swing. The attendance today was very satisfactory for the first day.

About three hundred and fifty birds are on exhibition ready for the inspection and admiration of the public. The crowing, cackling and quacking which greet the visitor's ear on entering the show room would almost convince one that all the poultry in the county was in attendance at the show.

Many fine birds have come in since yesterday. There are many varieties of chickens on exhibit including Wyandottes, Minorcas, Brahmas, Langshorns, Plymouth Rocks, Leghorns, Bantams, Buff and White Rocks and Orpingtons. James Crawford of Scottsburg, George Bartlett of Seymour and James Marsh of Reddington and others are making the exhibit of Buff Rocks especially fine.

There are many coops of Indian Runner ducks and C. S. Hopewell of this city and George Beyers of Reddington, have a lot of pigeons that are attracting attention. There are several coops of fine turkeys and geese.

Several Columbus men have valuable exhibits at the show. Carl Voland has Partridge Wyandottes, Frank Boyd black Minorcas and Carl Rost, black Wyandottes.

George Clark, president of the association will have on exhibit some of the birds that captured premiums at the recent Madison Square Garden show in New York.

Dr. Prall of this city has some fox hounds at the show and Dr. Murray of Redding township, has two fine fox terriers. Dr. Prall is also exhibiting six fox skins. One is from a red fox caught just west of the city. H. C. Dannettell, the secretary of the association and in charge of the show, was the busiest man in town this morning making up the list of entries and looking after affairs. Holmes Robertson of Cortland, treasurer, has charge of tickets and receipts. James Marsh who is vice-president of the association, is spending his time at the hall.

The scoring of the birds was begun this morning. H. L. Bridges is serving as judge.

The show will last the remainder of the week and anyone who fails to attend will miss a splendid exhibition. The finest poultry in Jackson and neighboring counties is there.

Dr. F. A. Steele is recovering from his recent illness and will resume his work next week.

S. V. Harding and wife left Wednesday evening for Thomasville, Ga., to spend the winter.

CIRCUIT COURT.

Next Term of Court Will Convene
Second Monday in February.

The February term of the Jackson circuit court will convene the second Monday in February. Before the close of the last term of court the following cases were decided:

Hattie Henderson vs. Emery L. Henderson; divorce granted plaintiff. Dickinson Trust Co. vs. Albert C. Hansen, et al; judgment for plaintiff in the sum of \$2742.30.

Elizabeth Hancock vs. Nannie Buchanan, et al; partition of real estate made.

Minerva Glasson vs. George C. McDonald, on note; judgment for plaintiff in the sum of \$91.01.

Mary Belle Jamison was granted a divorce from John Jamison.

One new case has been filed by Katie Hobson against James B. Hobson, divorce. They were married October 3, 1906, and separated March 22, 1907. In her complaint the plaintiff alleges that on the last mentioned date the defendant abandoned her without cause, and has since failed and refused to contribute to her support.

DECEMBER WEATHER.

Minimum Temperature of Seven Degrees is Registered.

According to the report of J. Robert Blair, official weather observer for Seymour the lowest temperature registered last month was seven degrees above zero recorded on the 25th. In December 1909 the lowest temperature was 10 below zero recorded on the 30th. The maximum temperature last month was 58 degrees on the 28th while for the same month 1909 the highest temperature registered was 61 degrees on the 1st.

During the past month eight heavy frosts have been noticed while in the corresponding month in 1909 only three were recorded. There was a total rainfall of 2.17 inches last month as compared to 3.22 inches in December 1909.

The greatest range of temperature last month was recorded on the 14th, 20th and 21st, with a difference of 30 degrees. The least was 9 degrees on the 1st. In December 1909 the greatest range was 33 on the 1st and the least was 3 on the 25th. Last month there were nine clear days and 7 partly cloudy as compared to 13 clear days and 8 partly cloudy in the same month 1909.

New Year's Card.

H. P. Radley, general freight and passenger agent of the Chicago, Terre Haute & Southeastern, sent out a rather unique new year card of his own design, representing 1910 as Time departing dragging an engine marked S. I. by a string, the picture taking up one side of the card. On the other side 1911 is represented by a stork carrying a sling in its bill a large engine marked C. T. H. & S. Between the two, under a sprig of holly, is "Compliments of the season" with Mr. Radley's name and official position in the lower right hand corner. It tells at a glance the story of the going of the Southern Indiana and the arrival of the Chicago, Terre Haute & Southeastern railway, as well as the going and coming of the old and new year.

The decorators are still at work at the New Lynn Hotel and the lobby has already a much improved appearance.

Noble Abell, son of Marshal J. T. Abell, has taken a position as messenger with the Western Union Telegraph Company.

WORK PROGRESSES
IN NEW BUILDING

Pupils of Shields Building Appreciate Accomodations Which Have
Been Provided for Them.

BEST OF CONDITION PREVAIL

Authorities Aim to Centralize Efforts
Towards Raising Standard
of The Work.

If any one in Seymour is of the opinion that a sanitary, conveniently arranged school building has no influence upon the pupils they should visit the new Shields building and see the quiet, orderly manner which prevails in all the classes and during the various study periods. Every advantage has been provided for the accommodation of the pupils and they seem to take a greater interest in their work than ever before.

Since the new building was opened Monday every department has been given a fair test and has proven satisfactory in every respect. The schedule of classes has been arranged and the teachers and pupils work in perfect harmony. The pupils are no longer annoyed by rattling windows and squeaking stairways and every condition is favorable for the best of school work.

When the pupils enter the building these cold morning they pass through a warm vestibule into the large corridor. The concrete floor of the halls reduce the noise of walking to a minimum. Before entering their class or study rooms they place their cloaks in the new cloak rooms which are well ventilated and heated so that they will be thoroughly dry before the pupils return home.

The assembly room is sufficiently large to accommodate all the members of the high school without being inconvenienced as in the old building. The room is well lighted and like the other departments of the building evenly heated to the proper temperature.

At the time for the classes to convene or adjourn a large electric bell is sounded in the corridor. In passing from one room to another the pupils are not required to form a line of march as was necessarily required in the old building because of the narrow halls, yet there is no disorder or disturbance and the classes are quickly assembled.

On the first floor are the rooms for the high school classes, except for the English department, and for grades one and two. The school board thought it advisable to locate these grades on the first floor so that the pupils would not be required to mount the steps to the second floor.

On the second floor is the English department and also the rooms for the other grades. On the second floor the pupils of grades seven and eight meet in a large assembly room but their class rooms adjoin the assembly room on the east. In going to their different rooms it is so arranged that the pupils do not disturb the other classes.

In the basement are the physical science and chemistry laboratories which will be arranged as soon as possible. In the physics department the equipment has been installed and the experimental work will begin within a short time. The excellent gym-

nasium is almost completed, and the equipment which was given to the school will be erected as soon as possible. Later arrangements may be made to conduct regular gymnasium classes.

The school work is now being systematized so that the best results will be obtained. It is the desire of Superintendent J. A. Linke to raise the standard of the Seymour school to second to none in the state and in this he will have the cooperation of his excellent corps of well trained and efficient teachers. It has been thought advisable to select a principal for the grades in the Shields building and Miss Elizabeth Rinehart has been chosen.

While considerable time has been lost this year because of the new building an effort will be made to cover the complete year's course as thoroughly as possible. The pupils appreciate the advantages which are afforded them and are willing to help in making the year as profitable as they can.

INDICTMENT QUASHED

United States Supreme Court Upholds the Freedom of the Press.

Washington, Jan. 4.—The criminal libel suit begun at the instigation of President Roosevelt against the publishers of the New York World because of the publication in the last presidential campaign of the alleged Panama scandal, has been brought to an end in the supreme court of the United States. Chief Justice White read an opinion in which all of the justices concurred, affirming the judgment of the United States district court for the southern district of New York quashing the indictment returned against the publishing company. The decision rendered effectually disposes of the case against the World Publishing company.

While the status of the case against the Indianapolis News is unchanged, it is the opinion that the cases against the publishers of that paper will shortly be dismissed on the motion of the government. In the opinion delivered by the chief justice the freedom of the press is reasserted and the immunity of newspapers published in the states from wholesale federal prosecution is reaffirmed.

ACTED ON ADVICE OF
EMINENT ATTORNEYBucket Shoppers Say They Didn't
Suspect Wrongdoing.

Washington, Jan. 4.—Six New Yorkers indicted here in April last on charges of conspiracy to violate the law against conducting bucket shops in the District of Columbia, stepped to the front yesterday and paid fines aggregating \$8,100. In addition Justice Wright imposed a sentence of two years each on three of the men, but suspended sentence on condition that the three do not engage in the bucket shop business in the future.

The men who pleaded guilty were Richard E. Preusser, Leo Mayer, George Turner, E. S. Boggs, O. J. Robinson and Humphrey Owen. Prison sentences were pronounced upon Preusser, Mayer and Turner, but were suspended.

Preusser, acting as spokesman for himself and the others, made a statement to the court in which he recited that there had been no intentional violation of the law of the District of Columbia, and that the stock brokerage business in which they were engaged in New York was organized under the direction of one of the state's most prominent attorneys.

SECOND TIME FATAL

Practical Joker in a Kentucky Jail Accidentally Hangs Himself.

Lexington, Ky., Jan. 4.—A verdict of accidental suicide was returned by the coroner's jury here in the case of Millard Estep, a young man who hanged himself in his cell at the county jail. Estep, who had been sent up as a vagrant, was a practical joker, and several days ago frightened his cell-mate by pretending to hang himself, and when his companion had summoned aid by his frightened call for help, deliberately loosened the chain from around his neck and stood laughing at the crowd that had assembled at his cell door. So much did the prisoner enjoy this escapade that he tried it again, but this time his companion failed to respond to his pleadings for help, and the chain became tangled in such a manner that he could not release himself. In the course of half an hour his cell-mate became alarmed and summoned the jailer, who found the prisoner dead.

Their Alarm Was Needless.

Harrisburg, Pa., Jan. 4.—The only thing to break the monotony of the well-oiled Republican machine in the opening of the legislature yesterday was the nomination of P. C. Knox for the United States senate. For a time the members thought some sudden uprising might be behind it, but breathed easier when they later found there was nothing to it but the enthusiasm of two or three Keystone supporters.

SPECIAL NOTICE.

The first installment of Taxes must be paid on or before the FIRST MONDAY in May, otherwise the whole tax will be delinquent and subject to penalties. Particular attention is called to the fact that spring payments, having been extended to the first Monday in May, gives the Treasurer less time to make settlements and it will be to the interest of the taxpayers to be as prompt as possible in paying the same. The second installment must be paid on or before the FIRST MONDAY in NOVEMBER following. Road receipts must be presented on or before the FIRST MONDAY in MAY, 1911. They will not be taken on second installment of taxes.

Call on Auditor for irregularities in Taxes or for reductions to be made. Treasurer cannot make such reductions.

County orders cannot be paid to anyone owing delinquent taxes, and all persons are hereby warned against purchasing such order.

The annual sale of delinquent lands and lots will take place on the second Monday in February, 1911, at 10 o'clock a. m.

Persons desiring statement of their taxes must make their request at least ten days before the last day as we cannot stop to send statements during the last days of collection.

Parties having complications please come before the rush incident to the last days of Taxpaying.

The Treasurer is guided by the Statutes of Indiana, from which there is no relief. Do not ask him to violate his oath. Taxes unpaid after the first Mondays in May and November are subject to the 10 per cent penalty. We intend to follow the law in each and every case. If taxpayers would avoid the penalty prescribed by law, payment must be made not later than Monday, May 1st and November 6th, 1911. Remittance post marked Monday, May 1st, and Monday, November 6th, and reaching this office next day will be accepted.

Persons owing delinquent taxes should pay them at once. The late law is of such a character that there is no option left the Treasurer but to enforce the collection of delinquent taxes, however much he may regret to collect the same, by sale of property. Nothing is exempt from taxes.

HENRY PRICE,

Treasurer of Jackson County.

Brownstown, Indiana, January 4th, 1911.

SPECIAL NOTICE.

Parties having school fund loan on which interest is delinquent will please give payment of said interest their attention before the first day of March 1911, as the law compels the prompt collection of said interest.

Osteopathy

IS NATURE'S AID TO HEALTH AND APPEALS TO REASON.

It is not a cureall, but it adds years to the life and life to the years of chronic sufferers, who have tried other methods without success. If you are rheumatic, neuralgic, dyspeptic, paralytic, asthmatic, can't eat, can't sleep, all fagged out without exertion, fractions and fly to pieces, fear a nervous collapse, something is seriously clogging the wheels of life. The longer you try to work while the body machinery is out of gear, the greater will be the damage it suffers.

The Human Body a Working Machine.

No defective machine can turn out good work. Every day that an "unclean" watch, auto, or any other machine is compelled to run, wears seriously its vital parts and saps its vitality.

Man of today is as near a machine as he probably ever can become, and still exist. To keep him in perfect "running order" he has to be treated as such. Now, if your watch or auto had slipped a cog, or was "clogged up" with foreign matter threatening its very existence unless removed, would you apply acid or dope to rid it of foreign matter or to adjust its parts?

As With Auto and Watch

so with the human body; it gets out of running order through the process of life and needs repairing. It has been abundantly demonstrated in this community that health depends upon the human machine being kept in good mechanical order. Adjustment of the human body is the particular and special work of the

SPAUNHURST OSTEOPATHIC PHYSICIANS.

That they are expert body mechanists, know what to do and how to correctly fix what is mechanically wrong with the body structure is evidenced by kindly expressions of those who have given their treatment a fair trial. Ask them about it.

A cinder gets in your eye, you poultice it and quell the inflammation, but the cinder will bring it back. Lift up the lid and remove the cause—the cinder—and the trouble will remedy itself. Just so it is when you are sick, before you can be well the cause must be found and removed. Which will you choose.

OSTEOPATHY TO REMOVE THE CAUSE.

or drugs to palliate the symptoms? Palliation can never cure. All that is needed to demonstrate this is unprejudiced inquiry. What they have done for others they can do for you. They have earned and are entitled to the liberal patronage accorded them during their two years' practice. First National Bank Building, Seymour every Monday, Wednesday and Friday. Such are their credentials. They give a little more satisfaction than is expected and make good every promise. They do not claim to perform miracles. Aid nature to health—that's all. Go and see.

Consultation and Examination is Without Charge.

SALIENT POINTS FOUND IN THE PRESIDENT'S MESSAGE.

CANAL FORTIFYING.

I have already stated to the congress that I strongly favor fortification (of the Panama canal), and I now reiterate this opinion.

We have built the canal. It is our property. Failure to fortify the canal would leave the attainment of both these aims (universal use and an increase of military effectiveness of our navy) in the position of rights and obligations which we should be powerless to enforce and which could never in any other way be absolutely safeguarded against a desperate and irresponsible enemy.

MERCHANT MARINE.

I cannot too strongly urge upon the congress the passage of a measure, by mail subsidy or other subvention, adequate to guarantee the establishment and rapid development of an American merchant marine.

Unless prompt action be taken the completion of the Panama canal will find this the only great commercial nation unable to avail in the international maritime business of this great contribution to the means of the world's commercial intercourse.

Unless we create a merchant marine where can we find the seafaring population necessary as a naval reserve, and where could we find, in case of war, the transports and subsidiary vessels without which a naval fleet is arms without a body?

SAVING OF \$53,000,000.

Every effort has been made by each department chief to reduce the estimated cost of his department for the ensuing fiscal year ending June 30, 1912. The final estimates for the year ending June 30, 1912, for the ordinary expenses of the government amount to \$630,494,013.12. This is \$52,964,887.36 less than the appropriations for the fiscal year ending June 30, 1911.

By the detection of frauds in weighing sugar upward of \$3,400,000 has been recovered. The treasury department has perfected the method of collecting duties at the port of New York so as to save the government upward of \$10,000,000 or \$11,000,000.

CORPORATION PROSECUTION.

I do not recommend any amendment to the interstate commerce law as it stands. I do not now recommend any amendment to the anti-trust law. In other words, it seems to me that the existing legislation with reference to the regulation of corporations and the restraint of their business has reached a point where we can stop for awhile and witness the effect of the vigorous execution of the laws on the statute books in restraining the abuses which certainly did exist and which roused the public to demand reform. If this test develops a need for further legislation, well and good, but until then let us execute what we have.

WILLIAM E. COREY

President of the Steel Trust Resigns Position.

New York, Jan. 4.—After more than seven years of service as president of the United States Steel corporation, William E. Corey has tendered his resignation to take effect at the pleasure of the board of directors.

UNCLE JOE COMES IN FOR MORE MILLIONS

Mysterious Testator Leaves the Speaker a Fortune.

Washington, Jan. 4.—Speaker Cannon has received a letter from King, King & Co., bankers, of Bombay, India, notifying him that a woman client of theirs, having been warned by her physicians that she had less than six months to live, had deposited with them her will for execution upon her death, in which Joseph G. Cannon of Danville, Ill., is made sole heir to an estate valued at approximately \$2,500,000. The legacy, according to the letter of notification, does not drop on Uncle Joe out of a clear sky, without rhyme or reason. It is explained that many years ago Mr. Cannon, then a hard-working member of the rank and file of the house of representatives, did a favor for a man then poor and struggling, from whom he could have expected no return. The man went to India and amassed a great estate. Upon his death he left his entire estate to King, King & Co.'s client for life, with the stipulation that on her death it was to revert to Mr. Cannon. Speaker Cannon is coddling his brains trying to think of someone among the many people for whom he has done favors in his many years of public service, who might be grateful enough to reciprocate by making him heir to an immense fortune.

Died of His Wounds.

Franklin, Ind., Jan. 4.—George W. Mitchell, who shot himself three times at his home four miles south of this city, during a fit of insanity due to family troubles, is dead. Mrs. Mitchell, who was shot in the neck, is improving.

WOMEN TO BE GIVEN A CHANCE TO RULE

That is, If Adams County Men Can Arrange It.

West Union, O., Jan. 3.—The people here, with a hundred more indictments reported by the special grand jury investigating ballot bartering in Adams county, are raising a cry for woman's suffrage as a cure for election corruption. The jury will adjourn today for a few days to give Judge Blair and Special Prosecutor Stephenson time to review their work. Then a second jury will be called to make a second investigation. It is the aim of Judge Blair to catch the vote buyers and men higher up in the second probe.

The cause of woman suffrage is being boomed by the men in Adams county because here, and here alone, men hitherto regarded as representative citizens know what it means to be disfranchised.

One woman, a widow, Mrs. Fallie Inlow of Meigs township, confessed to selling her son's vote, but despite this exception it is the women of Adams county who have been the most potent factor in bringing about the investigation which will disfranchise one-third of the county's voters. Over 1,300 have been indicted.

SPALDING NOT IN IT

The Californians Seem to Look on Him as a Carpetbagger.

Sacramento, Cal., Jan. 3.—It looks as though Judge John S. Works of Los Angeles would be the next United States senator from California to succeed Senator Flint. His managers have secured nearly all the requisite sixty-one votes necessary to choose. Works is favored by insurgent Republicans, and he has developed too much strength for A. G. Spalding, the millionaire sporting goods man of San Diego, who is regarded as a carpet bagger, since he has only been a resident of California about five years.

May Complicate the Situation.

Nashville, Tenn., Jan. 3.—The United States senatorship is much in doubt. Neither ex-Governor McMillin nor Senator J. B. Frazier have yet shown a possible majority. If General Luke E. Wright comes in, the situation will be so complicated that no one can foresee the result.

LOBBYISTS UNDER FIRE

Hoosier Solons Preparing to Sit Down on These Gentry.

Indianapolis, Jan. 3.—One of the first things the Indiana legislature will do will be to give some attention to the gentlemen of the third house, and try by legislative enactment to curtail the rights and privileges of those distinguished representatives of the "plain people." Several members have bills already prepared or in process of preparation touching the subject of professional lobbying.

A bill was introduced at the last general assembly to control the members of the third house, but it was never brought to a vote. The members who have such bills this session hope for better success.

New York, Jan. 3.—Anna Volinsky, the woman who was committed to the Manhattan state hospital on Ward's Island about a month ago after she had threatened to take the life of Jacob H. Schiff, was found dead, hanging by a slender rope from a hook in the closet in the room at the hospital, late yesterday afternoon.

SCHOOL FUND DIVIDED

Jackson County Receives An Appor-
tionment of \$13,304.30.

Charles A. Greathouse, state super-
intendent of public instruction, has
sent to the state printer the list of
common school fund apportionments
for January, according to which the
township trustees of the state make
their January "draws" for the com-
pletion of the current school year.
Jackson county has a total enumera-
tion of 7,365 and will receive an
apportionment of \$13,304.30. The
apportionment was compiled by John
I. Hoffman, deputy superintendent,
from the settlement sheets filed with
the auditor of state by county audi-
tors in the December settlement of
taxes collected.

The total amount apportioned is
\$1,379,288.68. This is distributed
among the counties on a basis of \$1.82
an increase of 1 cent over January,
1910, for every person of school age
enumerated in 1910. The total enum-
eration for the state was 754,972.

From the total amount paid in to
the common school fund in the De-
cember settlement, 5 per cent, was set
aside for the deficiency fund, with
which school corporations not having
sufficient revenue from their own
taxes to keep their schools going for
the required length of time are enabled
to comply with the law as to the
length of the school term.

The total amount of the common
school fund for the current appor-
tionment was made up as follows:
Collected in taxes since the last ap-
portionment, \$227,093.92; amount
paid in by counties to balance the in-
terest account, \$42,145.35; amount
derived from unclaimed fees and
other sources, \$534.91; amount in
state treasury, \$6,450.97.

The deficiency fund for the current
school year, made up from 5 per cent
of the June and December common
school fund settlements with the au-
ditor of state, amounts to \$132,245.57.
This will be distributed in February
among the corporations needing help.

PROOF THAT PROVES

If one person more than another
should know the value of medicine, it
is the retail druggist.

Therefore when ten thousand re-
tail druggists of the United States
recommend Vinol, the delicious cod
liver and iron tonic, without oil, as
the best strengthening tonic known,
and are willing to return their
customers' money in every case
where it fails to give satisfaction,
there can be no room for doubt.

Among others, one of the most
reliable druggists of Lynn, Mass., Mr.
Warren Toppin, says, "From personal
experience I know what Vinol will
do. I had a chronic cold all winter,
and was so weak I could hardly get
about. Nothing seemed to help me
until I tried Vinol—the change was
magic—and what surprised me most,
Vinol not only cured the cold but built
me up and cured me of a severe stom-
ach trouble that had bothered me for
twenty years. Vinol is certainly a
wonderful medicine." (We guarantee
this testimonial to be genuine.)

We ask every run-down, nervous,
debilitated, aged or weak person or
any person suffering from chronic
coughs and colds to try a bottle of
Vinol with the understanding that
their money will be returned if it does
not do all we claim. Andrews-Sch-

RUNAWAY GIRL

From the Country Found by the Mar-
shal This Morning.

Marshal Abell this morning re-
ceived a telephone message to look
for Effie Humble an eleven year old
girl who had left her home near Drift-
wood church several days ago.

The officer found her staying with
friends on Vine street. Her father
was notified and came after her.

She left her home the first of the
week to spend the night with a girl
in the neighborhood and the next
morning she came to Seymour. The
father stated that he had been unable
to control her, she being under the
influence of older companions.

STEWARDS MEETING

Financial Affairs of the District Dis-
cussed at Meeting Here.

The stewards of the various Meth-
odist churches in the Seymour dis-
trict held their annual meeting here
today at the First M. E. Church.
Each charge in the district is entitled
to one steward, but several of the
representatives are absent, there being
but fifteen present.

The meeting is called for the pur-
pose of discussing the financial af-
fairs of the district and of the differ-
ent churches. At the meeting here
today the question of the salary of
the district superintendent was pre-
sented, it having been suggested that
each church pay him a certain per-
cent of the salary received by minis-
ters of the charge.

Died at Mitchell.

James W. Pomeroy died at 5 o'clock
this morning at his home in Mitchell.
He had not been well for some time
and last night about 9 o'clock was
taken very sick. He was 55 years old
and was born at Georgetown, Ky.
Most of his life was spent in Sey-
mour. About five years ago he moved
to Mitchell where he has been running
a B. & O. yard engine.

He had been married twice, his first
wife being Miss Alice Baughman of
Brownstown. She died in November
1908 and last June he was married to
Mrs. Anna Lubker of Vallonia. She
survives him. Also a son, Ira Pomeroy
and a stepdaughter, Della Lubker.
He was a brother of George Pomeroy
of Seymour.

EVANGELIST I. N. ALDRICH

Will Preach Sunday Morning and
Evening at Christian Church.

Rev. I. N. Aldrich, of Terre Haute,
lecturer and evangelist, will deliver
two sermons at the Christian church
Sunday. He has a wide reputation
as an evangelist and has been highly
recommended to the congregation
here. For several years he has been
delivering a series of lectures on the
Bible illustrated with stereopticon
views.

With Rev. Aldrich Sunday will be
his daughter, Miss Virginia Aldrich,
who is an evangelistic soloist, and
will sing several solos. The mem-
bers of the congregation are urged to
be present at both of the services.

WOMAN ARRESTED

Mrs. Reeves Charged With Entering
Quarantined House.

Marshal Abell at noon arrested
Mrs. Tena Reeves of East Myers
street. She was charged with enter-
ing the residence of Mrs. Sage at 510
west Fifth street which is quarantined
and posted.

It is claimed she was notified by
the occupants of the house not to
enter but did not heed the warning and
they telephoned the officers. The
marshal and Dr. Carter of the Health
Board went to the place and seeing
the woman leaving, she was arrested
by the officer and taken to jail.

Wednesday afternoon at the home
of Mrs. Frank Abele. Mrs. June
Holderman, of Indianapolis, was
among the out-of-town guests.

The new target signal has been
erected at the crossing of the B. &
O. S-W. and Pennsylvania railroads.
One of the gates has been taken down,
and the engineers are given the signal
by the watchman. During the past
few months several engines have gone
through the gates and the company
decided that it would be a better plan
to erect the target system. A high
signal pole has been erected at the
crossing, and at night the right of way
is given by means of a light.

CHARLES F. JOHNSON

Who Will Take Eugene Hale's
Seat in United States Senate.

Augusta, Me., Jan. 5.—Charles F.
Johnson of Waterville was nominated
as the Democratic candidate for Uni-
ted States senator to succeed Eugene
Hale in the party caucus here last
night. This action insures his election
by the legislature on Jan. 17, as both
branches are strongly Democratic.
He served two terms in the legislature
and had been mayor of Waterville.

**INSTITUTE OF FRANCE
BARS WAY TO WOMEN**

Mme. Curie Denied Membership
In Scientific Body.

Paris, Jan. 5.—Madame Curie, ac-
cording to a decision of the Institute
of France, cannot become a member
of the Academy of Moral Sciences,
which is one of the five academies
comprising the institute. Neither can
any other woman. Ever since the an-
nouncement of the candidacy of Mme.
Curie, who, with her late husband, dis-
covered radium, there has been a hot
debate over the right of women to be-
come members of the institute. It was
claimed among other things that it
would be against the law, but this was
disputed and the partisans of Mme.
Curie said that even if this claim was
correct the law should be changed.
Finally M. Bertalonde, a member of
the Academy of Moral Sciences, intro-
duced a resolution that the institution,
without dictating to the various acad-
emies, limits itself to stating that an
immutable tradition, barring out wom-
en exists, which it seems extremely
wise to respect. The motion was
adopted by a vote of 90 to 52.

TROUBLE SOMEWHERE

A Catastrophic Earthquake Indicated,
Probably in South America.

Rome, Jan. 5.—The principal Italian
observatories have signalled that the
seismographs have just recorded a
catastrophic earthquake between 4,000
and 6,000 miles to the southwest.
There were repeated shocks at inter-
vals of a few seconds. The quakes
were of such extraordinary intensity
as to damage the levers of the seismo-
graphs. Prof. Stiattesi thinks the
earthquake was somewhere in South
America.

DIED.

PRIEGNITZ.—Mr. and Mrs. Henry Schepman received a message this morning of the death of their daughter, Mrs. Amelia Priegnitz, in Arizona. She was married about a year ago to Edward Priegnitz of Indianapolis and until recently lived in that city. Several months ago they moved to Seattle, Washington on account of her health, and later went to Los Angeles, Cal. Her health failed to improve, however, and about ten days ago they went to Arizona where she died. She is survived by her parents and several sisters.

The Newspaper Press.

The total number of newspapers published in the entire world comprises between 5,500 and 6,000 dailies, of these, over 900 are credited to Germany, 250 to Great Britain, while Paris alone has 150—more than London, New York, Philadelphia and Boston added together. LePetit Journal, of Paris, has the largest circulation in the world; but the native dialect papers of India have the greatest number of readers. Because they are circulated until completely worn out. The Post Zeitung, of Frankfurt, Germany, is the oldest newspaper in Europe; but in China the Kin Pan is a thousand years old, and the Tsing Pao or Peking News, is the oldest newspaper in the world, having been regularly published for nearly 1,400 years. Its circulation is about 10,000. To indicate the extreme care that is exercised in publishing this paper, we should mention the fact, that until recently, at least, instant death was the punishment for an error in printing.—American Bulletin.

JAMES DEMAS

A PENSION BILL

Which Interests 16,000 Teachers, Ready for Legislature.

About 16,000 teachers will be affected if the legislature passes the bill which has been prepared by the teachers' and superintendents' association of the state. The bill has been strongly indorsed by educators and will be pushed. B. F. Moore, chairman of the committee having the bill in charge says:

"The teachers' disability and retirement bill is more of a mutual benefit bill than a teachers' pension act. We desire simply the authority of the Legislature to use the official organization of the school system of the state to carry out the provisions of the act. An assessment of 1 per cent. of the salary of each teacher will be applied to a fund to support retired and disabled teachers when they become entitled to share in the distribution of the fund. Any teacher who dies or quits the profession before having become eligible to an annuity will receive one-half of all that he has paid into the fund. To become eligible to an annuity, a teacher must have taught thirty-five years or have become disabled for reasons other than age.

"The bill as drafted provides that the state shall supply whatever deficit exists after the fund raised by assessments has been exhausted. No call will be necessary for three or four years and at the end of that time, if it is seen that a deficit will occur, the assessment may be raised from 1 per cent. of the salary to 1½ or 2 per cent. There are not more than one or two teachers in each county who would be entitled to an annuity immediately after the passage of the bill.

"No annuity of less than \$250 is provided for in the bill. The basis of determining the amount of the

annuity is the product of the average salary for the last five years and the number of years taught divided by 100. If the result is less than \$250 the teacher will be given \$250, nevertheless, because it is believed that this amount is the smallest upon which one person could live for a year."

MILLION DOLLAR TEMPLE FOR MASONS OF SCOTTISH RITE

THE Ancient and Accepted Scottish Rite of Freemasonry for the southern jurisdiction of the United States soon will commence the erection of a mammoth temple in Washington which it is expected will be the largest and most magnificent of its kind in the world.

The cost of the site was \$164,000, and the cost of the new temple when completed will exceed \$1,000,000. Classic in design, the structure will be of white marble, four stories high, with two basements. The building will be square in shape, the frontage 156 feet

temple will be a golden sunburst, the rays of which will flash from the symbolic double eagle and triangle of the thirty-third degree. Above this will rise great columns, thirty-three in all, each thirty-three feet high, which will support the temple on three sides as well as the entablature, from which rises the square shaped golden dome.

Each one of the thirty-three states in the southern council will be provided with an apartment on the main floor, each room to have separate symbols and emblems representing each of the thirty-three degrees in Masonry. Besides a suite of rooms on this

and depth the same, and have a gold dome rising 160 feet from the street level.

The steps leading to the temple will be symbolic of the Masonic degrees. The plaza, which will extend the full width of the building, leads from the sidewalk, with three steps to the first rise and five steps to the second before the terrace is reached. Across the terrace will be two other rises of seven and nine steps respectively, which will lead to the portals of the entrance.

On the terrace will rest symbolical and allegorical statuary. Over the massive portals of the entrance to the

MOROCCO SHORT OF REFORM.

Sultan Foils Grafters in Army by Shrewd Trick.

A Tangier correspondent has given an amusing description of the difficulties which confront the sultan of Morocco in his efforts to reform his army.

The Moorish officers, who by all manner of corruption were able to make a profitable living out of their positions, oppose the new system, especially as the payment of their men will be taken out of their hands. It was only by ordering all the troops into Fez for an inspection by himself that the sultan was able to obtain possession of the arms and accoutrements of his soldiers, as a very considerable proportion of their rifles, etc., had been stolen by the officers.

Desiring to make as good a show as possible at the parade, the officers brought out the concealed arms and hired a large number of loafers to serve as soldiers, hoping by this means to impress the sultan with their excellent services and to conceal the fact that they had been drawing the pay of far more men than they really had under their command.

The army appeared upon parade in the palace square, the gates were closed and the soldiers ordered to disarm and take off their uniforms, while the dismayed officers saw all the loot carried off into the palace.

QUEER NAMES IN OZARKS.

Rat, Kiddos Spur and Protom Among Towns' Titles.

In a single Ozark mountain county of Missouri this large collection of the literal label is shown: Rat, Ink, Gang, Alley, Timber, Horse, Hollow, Sinkin, Birch Tree, Timber and Low Wassie. More imaginative, perhaps, are Not and Congo. Mountain View represents the humorous department, for it is in a hollow where there is neither view nor mountain.

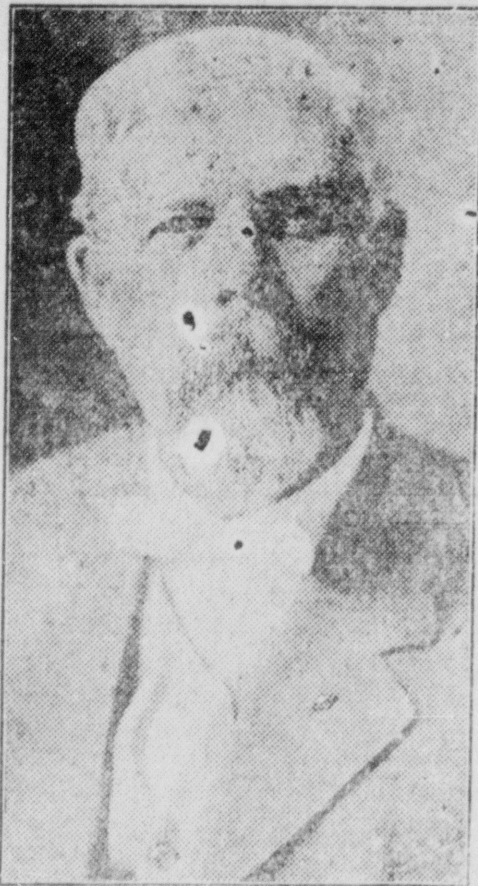

For shortness of name the region is no less remarkable with such types as Hy, All, Lon, Job, Arp, Osa, Coy, Day, Bly, Ban, Igo, Abo and Roe. Some times the traveler may have a suspicion that the towns have been named after the fashion that the Indians label their children. There are such examples as Coin, Groom, Notch and Flag.

Sometimes the labels are poetic and alluring—Shadygrove, Birdsong and Romance—and again they are as far in the other direction, as Kiddos Spur, Hughes Stone Quarry, Hanks and Smittle. For those who know Latin, Bona is a good name for a town, though Dagonia and Protom may seem radical.

Amazon Indians Use "Wireless." Indians of the upper Amazon have developed "wireless telegraphy" by means of drums made of hollow logs tuned to varying pitches.

STOKES JACKSON

His Friends Working Hard to Secure a Rich Plum For Him.

DEMOCRATS WORKING FOR STOKES JACKSON

A Trainload of Them Will Go Right to Washington.

Indianapolis, Dec. 31.—Leading Democrats, including all the state officers, have ordered two special cars for Jan. 16 to take them to Washington, where they will work for the nomination of State Chairman Stokes Jackson for sergeant-at-arms of the house. It is expected that seventy-five or a hundred Democrats will go to Washington, and they will remain until after the Democratic house caucus, Jan. 22.

Information received here by Jackson's friends is to the effect that many votes are already pledged and that he stands a good chance of getting the position.

Congressman Ralph W. Moss of the Fifth district, who is in the city, said that he believed Jackson would be able to land the place. "I feel sure that Jackson will be elected," he said. "Indiana has the largest Democratic delegation in the house of any state north of the Ohio river, and there is a disposition on the part of the members generally to give Indiana recognition."

REPEAL OF SCHOOL STATUTE IS URGED

Governor Marshall Says Distribution Law Is Unfair.

Indianapolis, Jan. 2.—The general assembly will be asked by Gov. Marshall to repeal an act passed in 1905 and amended in 1907 to provide for the distribution of certain state funds among school corporations unable to maintain a six or seven months' term of school out of the proceeds of a local tuition tax. The governor also will recommend a specific appropriation of \$60,000 to pay school teachers in southern Indiana who have claims against the local school corporations.

The original law creating a state common school tuition fund was approved Feb. 24, 1905. Its passage was brought about by Governor Hanly in anticipation of a shrinkage in local school revenues after the passage of the county local option law. One of the large sources of school revenue was the money collected in fees for retail liquor licenses. Governor Hanly knew that this source of revenue would be cut off and urged the passage of the act to create a fund for aiding such school corporations as would be affected seriously.

The county local option law was not passed until the special session of 1908, but the decrease in revenues following the passage of the act and the state's failure to provide sufficiently for the localities affected resulted in the failure of many corporations to meet their obligations to teachers.

The state common school tuition fund act was amended Nov. 11, 1907. The amendment provided that schools maintaining a six-months' term and a 25-cent levy, and schools maintaining a seven-months' term and a 40-cent levy should receive enough money from the state to complete the terms if the local funds were insufficient for that purpose. The state fund was created by reserving 5.2 per cent of the common school tuition tax collected each year.

Governor Marshall will urge the repeal of the law because he believes it unjust to tax the people in one section of the state for the support of the schools in another. He holds that all moneys derived from taxation should be distributed equally among all school corporations of the state.

Chic Little Dresses for the Kiddies.

Furnished by Pictorial Review

The Pictorial Review Bldg.

222-224-226 West 39th St., New York City

In PICTORIAL REVIEW PATTERN No. 3777, we have an exceptionally chic little one-piece dress for school wear. The box plait makes a change from the usual side plaits or wide tucks and are extremely smart. An effective finish may be given the model by making the little yoke facing, cuffs and belt of contrasting material. If the dress were made of a check or plaid, gingham, plain gingham of harmonizing color would be pretty for these trimming pieces. The closing of this frock is made at the back under the center box-plait. PICTORIAL REVIEW PATTERN No. 3777 may be had in sizes 2, 4, 6 and 8 years. Price ten cents. Size 4 requires 2 yards of 44-inch material.

PICTORIAL REVIEW PATTERN No. 3777 is a still simpler dress, though equally desirable for school wear. The little body portion is cut quite long, giving it a Frenchy air. A feature of this dress which will appeal to busy mothers is the straight skirt. This saves making the seams, necessary in a gored skirt. The yoke may be finished without the tab if desired, though this gives the Russian closing effect which is so becoming to youngsters. As for materials, linen, lawn, gingham, chambray, cashmere and fabrics on this order are desirable. This model may be had in sizes 2, 4, 6 and 8 years, size 4 requiring 1½ yards of 44-inch material. Price 10 cents.

Now for the little party frock and after all it's much more fun to make these than the plainer dresses. Every mother likes to fuss with dainty materials and laces and in making PICTORIAL REVIEW PATTERN No. 3773, she will have the opportunity. The panel front may be outlined with lace insertion and either trimmed with another row down the centre or daintily embroidered. The straight gathered skirt is attached to the upper portion by means of a strip of insertion, and little rosettes of pale blue ribbon sewed at either side of the panel as shown here would be pretty. Sheer bastiste, in white or in one of the delicate colors, linen, lawn, dimity and organdy are a few of the materials which would make up daintily in this model. This pattern may be had in sizes 2, 4, 6 and 8 years. Price 15 cents. Size 4 requires 1½ yard of material 44 inches wide.

These patterns include the cutting and construction guides.

BALLOTS PRODUCE

Women Win Franchise In Washington State

© 1910, by American Press Association.
MRS. O. H. P. BELMONT.

When the returns of the recent election are sifted and filed in the voters' minds one question stands out distinct from the Roosevelt and high cost of living issues. It is the women, for they have won the right to cast ballots in the state of Washington, and this fact—the vote was two to one—has obliterated from their minds the other indubitable facts that they were defeated in Oklahoma, South Dakota and Oregon and in the constitutional convention of the coming state of Arizona.

That makes five states in which the women can now cast their ballots, the pioneers being Colorado, Utah, Wyoming and Idaho. But the mere fact that they cannot vote did not interfere with campaigns for the cause and other causes. Hardly. New York, state and city, fairly buzzed with the efforts of the women to defeat the legislators who had downed their franchise amendment, and in Illinois the efforts to wipe out the legislators who had participated in the election of United States Senator Lorimer were successful in many instances.

Interest in the New York situation has always been directed largely by the interest Mrs. Oliver H. P. Belmont and Mrs. Clarence Mackay have displayed in the movement. Leaders of society and fashion heading the suffragette forces made the story full flavored to the newspapers, but it palled when it was discovered that these women were in earnest.

The Woman's Suffrage party, of which Mrs. Carrie Chapman Catt, veteran worker, is president, is a novel phase of the equal franchise fight in New York. This organization has paid Tammany Hall the sincerest flattery by using its methods in forming its own party. In consequence the women are organized throughout the greater city, enrolled 20,000 members during 1910 and have spread their doctrine of compact organization to other New York cities.

But there were other petticoat victories besides that in Washington, as Colorado elected four women legislators, the highest previous number being three, and the candidate of the so called weaker sex upset the Democratic party in Texas for the first time.

Mrs. Brit Trevathan's victory in Angelina county, Tex., was one of note. Her husband, the incumbent and nominee, had died, and she had been appointed to the vacancy on the ticket. But the Democratic organization reconsidered and named a man. So Mrs. Trevathan campaigned as an independent and won by 200 votes, the first time the Democratic party was ever defeated in Angelina county, and it took a woman to do it.

Then there was Mrs. Nellie Archibald of Ashland, Wis., who defeated two men for the county treasurership by a vote of two to one.

One of the remarkable instances of a political leader who showed his ability to "come back" was Joseph M. Carey of Wyoming, one of the state's first senators, who was elected governor on a Democratic and insurgent Republican ticket over the machine Republican nominee.

Little is known generally about the political situation in Wyoming because of its comparatively small population and the compactness of its Republican organization. Tammany Hall has nothing "on" the Wyoming Republicans when it comes to scientific organization, and Carey was one of its victims. He was a judge of the supreme court in Wyoming's territorial days and, together with Francis E. Warren, was elected to the United States senate when the state was admitted in 1890. He was the author of the Carey land act, which made possible the settlement of the west through governmental irrigation aid, but he was not in accord with the Republican machine, which was then and is now Senator Warren.

Mr. Carey's plans include "a commission system or the entire elimination of politics from city and town government; the placing of our educational, charitable and penal institutions beyond partisan control and opportunities for personal aggrandizement and the destruction of the machine government, which has dominated the state of Wyoming and added to the state expenses enormously."

Among them are:
A city is no better and no worse than its people. There is a certain hydrostatic level of morals all over the world.
I believe that more people drink because they are miserable than are miserable because they drink.

MANY NOVELTIES

Socialists Elect Their First Congressman

VICTOR L. BERGER.

VICTOR L. BERGER of Milwaukee, elected from the Fifth district, will be the first Socialist Democrat to sit in congress, and he will be a novelty in consequence. He defeated one of Senator La Follette's most able lieutenants, Henry F. Cochems, and his victory added to the socialist prestige enjoyed by Milwaukee since the election of Emil Seidel as mayor in the spring of 1910.

Though Berger is the leading apostle of a party sworn to destroy bossism, he is in reality absolute czar of the Social Democrats of his state.

"Victor Berger would sell his soul for political power," is the way a Chicago Socialist has characterized him. "I am the agent of the party. Bossism is impossible under the Social Democratic system," is Berger's answer.

Berger is also an opportunist and consequently sagacious. Realizing that socialism carried at once to its normal outcome would be ruinous to his party, Berger saw to it when Seidel was installed as Milwaukee's mayor that social democracy should not be apparent as socialism. He made it civic reform, and the citizens applauded. So gradually he is working the fundamental principles of the party into ordinances, alarming nobody except the red flag variety of Socialists, who denounce him as a traitor.

Henry George, Jr., who defeated William S. Bennett for re-election in the Seventeenth New York congressional district, was another novel development of the battle of ballots. He had been known politically, though chiefly as the son of the famous single tax advocate. The elder George died in the middle of the heated New York mayoralty campaign of 1897, and the son was obliged to substitute himself, running third in a four cornered contest. Since then he has been a newspaper man and campaigned in England during the recent budget fight.

His resounding defeat of Bennett was laid not only to the tariff, but to George's vigorous campaigning methods. He advocated free trade and single tax without equivocation, and one of his favorite tricks in emphasizing his views of the Payne-Aldrich tariff was to take a piece of cloth in his hands, tear it to bits and throw it among the crowd about the platform.

"This is the kind of cheap shoddy that is being passed off as wool by your tailors," he told them. "As a matter of fact, it is cotton, and the first rain that hits it will wash off any pretense of wool that there is about it."

One of the Democrats most mentioned in connection with the impending fight to succeed Senator Dick of Ohio is Brand Whitlock, mayor of Toledo author and sociologist. So far the contest appears to be an open fight, but Whitlock will have to down many candidates before he can join Theodore Burton in the United States senate.

For instance, there is John R. McLean, millionaire newspaper owner of Cincinnati, who has long nourished political ambitions with scant success. But McLean is counted out of the battle by many because of his residence in the southern part of the state from which Governor Harmon comes, and the senatorship is more likely to be awarded to a northern leader.

In that event Whitlock stands an excellent chance, for ex-Mayor Tom L. Johnson of Cleveland is not reckoned in the running. Atlee Pomerene of Dayton, lieutenant governor elect, is an avowed candidate and has strong backing.

Whitlock was the successor to the famous "Golden Rule" Jones as Toledo's chief executive and enunciated his view of the position by saying, "As a career the mayoralty to be worth while must be an exponent of the aspirations of the whole people."

Whitlock during his several terms as mayor has evolved many epigrams, and his ability to evolve them while speaking to the people directly has done much in crowning his campaigns with success.

Among them are:
A city is no better and no worse than its people. There is a certain hydrostatic level of morals all over the world.

I believe that more people drink because they are miserable than are miserable because they drink.

LOUIS D. BRANDEIS

Lawyer For Shippers Declares Roads Spend Too Much Money.

A MILLION A DAY

Wasted by American Railways, Says Lawyer Brandeis.

Washington, Jan. 4.—That the real need of the railroads of the country is not an increase in freight rates to meet the present financial status of the carrier companies, but less grafting and more honest efficiency in the administration of the internal affairs of the roads themselves, is the bolt that Louis D. Brandeis, as counsel for the shippers' association, fires into the rate raisers' camp in the shape of a brief filed with the interstate commerce commission. It is maintained, in the conclusion of one section of the brief, that "at least \$1,000,000 a day could be saved by the pursuit of methods of scientific management" of American railroads.

GAYNOR'S ASSAILANT DECLARED TO BE SANE

James J. Gallagher On Trial In Jersey City Today.

New York, Jan. 4.—After listening for more than six hours to testimony as to the mental condition of James J. Gallagher, who tried to kill Mayor Gaynor in Hoboken on Aug. 9 last, a jury in the Jersey City court returned a verdict in fifteen minutes that Gallagher is sane.

He was therefore placed on trial this morning on an indictment charging him with assault on Street Commissioner Edwards with intent to kill. Edwards' arm was grazed by a bullet from Gallagher's revolver, which was fired as the commissioner bore the discharged dock employee to the deck of the steamship a moment after the mayor was shot.

Pleaded Guilty to Bigamy.

St. Louis, Jan. 4.—Charles R. Drummond, son of a millionaire St. Louis tobacco manufacturer, now dead, and president of the Drummond Realty company here, pleaded guilty at Clayton, St. Louis county, to bigamy in marrying Miss Charlotte Vincent, a stenographer, and received the minimum punishment—\$500 fine and six months in jail. He paid the fine, but was paroled from the jail sentence.

Evidence of Foul Play.

Buffalo, N. Y., Jan. 4.—Isaac Van Allen, freight agent of the Buffalo & Susquehanna railroad, was found in a dying condition under the Marilla statehouse, and to Miss Marguerite the hospital. He had several wounds on his body. The police are investigating the case.

LIVELY SESSION NOW PROMISED

Congress In for Series of Interesting Debates.

THE LORIMER CASE UPPERMOST

The Ball Will Be Started Rolling in This Important Matter When Senator Owen of Oklahoma Presents His Resolution Declaring Lorimer's Election Null and Void—Other Matters Attract Attention.

Washington, Jan. 5.—After a two weeks' recess the national lawmakers resumed business today. All signs now point to a lively time for the remainder of the session. The house and senate began business on the double quick in the three weeks that preceded the Christmas recess, and it is certain now that there will be time for the consideration of several measures besides the regular appropriation bills. Five propositions loom up on the legislative horizon. The Lorimer case probably will attract the most attention from the public. Then there is the proposition to fortify the Panama canal. Next comes the resolution proposing an amendment to the constitution providing for the election of United States senators by popular vote. There is also bound to be a lot of discussion over the recommendation of the administration for the creation of a permanent tariff board. Indications are that the apportionment bill will stir up more or less excitement owing to the disposition of New York Republicans and others to insist that action on this measure be deferred until next winter.

There are other questions of minor interest that will have consideration by congress. Among them may be mentioned the bill providing for the subsidy of ocean carriage between the United States and ports of South America.

It is likely also that an effort will be made to bring up the Ballinger-Pinchot case. The Republican insurgents are getting restive, and there have been conferences among them that augur ill for Ballinger.

The Lorimer case will probably engage the attention of the senate at intervals for many days. Senator Owen of Oklahoma will start the ball rolling in an address to the senate in opposition to Mr. Lorimer and will present a resolution declaring the election of Lorimer to be null and void. It is now pretty generally known that the administration views with alarm the probability of Mr. Lorimer remaining in the senate with the credentials that he presented a year ago. President Taft is punctilious in his observance of the proprieties and will not openly interfere. However, it is known that administration leaders believe that Mr. Lorimer is not entitled to his seat and that the senate by formal vote should so declare. An ugly situation is developing in this connection and the senate debate is expected to be heated.

Senator Lorimer had planned to leave Washington yesterday for the south, but when he learned that the fight to declare his title to his seat invalid was likely to be precipitated in the senate today he hastily altered his plans and decided to remain over.

The "watchdogs of the treasury" show their teeth every time the suggestion is made in their presence that the government should fortify the canal. The "watchdogs" believe that the property should be neutralized, thus saving millions for the treasury. President Taft is not opposed to neutralization if it is accompanied by fortification. He will address a special message to congress on the subject.

Republican insurgents are not hopeful of inducing the senate to pass favorably on the proposed constitutional amendment providing for the election of senators by popular vote. However, they have received assurances that the resolution will be reported and that means a formal vote on it before adjournment. The insurgents have already announced that if they are defeated this time, as now seems apparent this time, as now seems apparent next winter.

After The Grippe

"I am much pleased, to be able to write and thank you for what Cardui has done for me," writes Mrs. Sarah J. Gilliland, of Siler City, N. C.

"Last February, I had the Grippe, which left me in bad shape. Before that, I had been bothered with female trouble, for ten years, and nothing seemed to cure it.

"At last, I began to take Cardui. I have taken only three bottles, but it has done me more good than all the doctors or than any other medicine I ever took."

Take CARDUI

J 42

The Woman's Tonic

For the after-effects of any serious illness, like the Grip, Cardui is the best tonic you can use.

It builds strength, steadies the nerves, improves the appetite, regulates irregularities and helps bring back the natural glow of health.

Cardui is your best friend, if you only knew it.

Think of the thousands of ladies whom Cardui has helped! What could possibly prevent it from helping you?

Remember you cannot get the benefit of the Cardui ingredients in any other medicine, for they are not for sale in any drug store except in the Cardui bottle. Try Cardui.

INDIANA GENERAL ASSEMBLY

Amid Scenes and Circumstances Characteristic of Such Occasions, the 67th General Assembly of the State of Indiana Today Entered Upon Its Sixty-Day Session—The House to Be Presided Over by Albert Veneman.

Indianapolis, Jan. 5.—The Sixty-seventh general assembly of the state of Indiana today convened for the constitutional sixty-day session with little to distinguish it in scene and setting from the usual run of its predecessors.

In accordance with the will of the Democratic caucus held last night, the house was organized by the election of Representative Albert Veneman of Evansville as speaker and the following additional officers:

Principal Clerk—Charles McCullough, Brazil.
Assistant Clerk—Mark Fippen, Salem.

Chief Doorkeeper—John J. Walsh, Indianapolis.

Postmaster—Bert Hendren, Linton. Veneman was elected by the caucus on the second ballot. The first ballot stood: Veneman, 24; Wise, 14; Seidensticker, 10; Cravens, 6, and Thornton, 4. The second ballot gave Veneman 31, Wise 18, Seidensticker 5, Cravens 2 and Thornton 2.

For fourteen years Albert J. Veneman has been a practicing attorney at Evansville. He is a graduate of Indiana university and a member of the Delta Tau Delta fraternity. Mr. Veneman is forty years old. He entered public life as city attorney of Evansville under the administration of former Mayor John W. Boehne, and has served as secretary and chairman of the Democratic city committee of Evansville.

Following is the Republican caucus slate:

Senate: President of senate pro tem, Will R. Wood, Lafayette; secretary, Colonel W. W. Huffman, Anderson; assistant secretary, Harry M. Fyke, Lagrange; principal doorkeeper, Orange R. Holman, Marion; caucus chairman, Horace L. Hanna, Plainfield; caucus secretary, James O. Sexson, Gosport.

House: Speaker, Jesse Eschbach, Warsaw; caucus chairman, Calvin Faris, Mitchell; caucus secretary, W. A. Breining, Delphi; principal clerk, David McGill, Laporte; assistant clerk, Edgar M. Baldwin, Fairmount; chief doorkeeper, John Kinsinger, East Germantown.

Senate Organization.

With Lieutenant Governor Frank J. Hall of Rushville presiding, the senate elected the following officers in accordance with the decision of the Democratic caucus:

President Pro Tem—Senator Evan B. Stotsenberg of New Albany.

Caucus Chairman—Senator Robert E. Proctor of Elkhart.

Caucus Secretary—Senator George William Curtis of Mt. Vernon.

Secretary of Senate—Dale J. Crittenger of Anderson.

Assistant Secretary—Ramus F. Stuart of Marion county.

Principal Doorkeeper—John Kelley of Rushville.

Following committee recommendations it was decided that the number of minor appointments be limited to fifty-seven, the senators to have forty-five appointments and Lieutenant Governor Frank J. Hall to have twelve. It is proposed to allow each Democratic senator an appointment or appointments bringing a total employees' salary of \$5 a day. This probably will enable some of the senators to have more than one appointment each, when the salaries of two appointees will not total more than \$5 a day.

The committee recommended economy all along the line, both in employees and in the expenditure of money for supplies. If the senators abide by their purpose to limit themselves to fifty-seven minor appointments, this number will be a large reduction in comparison with the number employed at the last session, and the committee says there will be a saving of \$5,000 or more.

It was agreed that there should be only twelve doorkeepers, including the principal doorkeeper, his assistant and ten ordinary doorkeepers. There will be only six pages. It is understood a number of changes in the senate rules will be made. It was decided to give Lieutenant Governor Hall complete supervision of the employees, with full power to settle any difficulties which might arise. The power of appointing the senate committees, a power which was taken away from him at the last regular session by the Republicans, also was restored to Mr. Hall.

In accordance with the recommendation of a joint committee of both houses it was decided that a purchasing agent be employed to buy supplies for both the house and the senate, the agent not to be a member of either house. Another of the committee's recommendations was that no extra pay should be allowed to employees except to the assistant secretary.

Colonel Henry Watterson, veteran Louisville editor, has sailed for Europe to remain away until May.

BROKE DOWN UNDER
SENTENCE OF COURT

Pennsylvania Politician Weeps
On Facing Prison.

Altoona, Pa., Jan. 5.—Former State Senator C. O. Templeton of Tyrone, self-confessed forger and embezzler, has been sentenced to an indefinite term of three to twelve years in the western penitentiary by Judge Baldrige in the county court. When sentenced he presented a tragic spectacle. His iron nerve that had stood him good when robbing scores of helpless widows and orphans who reposed trust in him during the past ten years, was gone. He broke down completely and wept like a child when begging for mercy in the court. When sentence was pronounced it was thought he would faint. Templeton was on the Republican ticket for re-election to the state senate when the exposure came. His defalcations were over \$125,000. Among those he swindled were relatives and his former pastor.

BOTTLING THEM UP

Mexican Insurrectos Are Now Between
Two Fires.

El Paso, Tex., Jan. 5.—The first real generalship shown in the campaign since the Mexican insurrection broke out is now being displayed. The Mexican government is flanking the insurgents and taking further steps to prevent their retreat into Sonora. It begins to look as if the end of the rebellion was in sight. Instead of sending General Luque to Ojinaga, according to announced intention when he was recalled from Pedernales with 500 men, he was sent north to El Paso and is to be turned south and run down to Casas Grandes and Pearson, in the rear of the insurrectos. If they do not escape meantime, they will be between Navarro on the east and Luque on the northwest.

Eight Left Behind.

Lafayette, Ind., Jan. 5.—When the company presenting the musical comedy "Miss Nobody from Star Land," left Lafayette yesterday after a performance at the Dreyfus theater, eight of its members were unable to go. All are suffering with attacks of grip or pneumonia.

Leading Trans-Atlantic Steamship Companies Involved.

UNCLE SAM SHOWS HIS HAND

In a Petition Alleviating a Combination in Restraint of Trade the Government Seeks to Break Up an Alleged Arrangement Whereby the Steerage Traffic of the Atlantic Is Said to Be Controlled.

New York, Jan. 5.—Papers have been filed by the government in the United States circuit court for the southern district of New York in a suit in equity brought against the leading trans-Atlantic steamship companies under the Sherman law. The petition alleges a combination in restraint of trade in the form of an agreement among the various lines with respect to the handling of steerage passengers. The contract upon which the action is based is alleged to have been entered into in London on Feb. 5, 1908. Under this contract, it is alleged, the parties thereto agreed to divide up the steerage traffic forwarded by them, each line receiving a percentage of the total.

The lines mentioned as defendants, according to the petition, controlled upward of 90 per cent of the third-class traffic between Europe and the United States at the time of the alleged agreement, and the petition alleges that upward of 75 per cent of the traffic is affected by the agreement. The government asks that this agreement be declared illegal and the defendant lines be forbidden either to enter or to leave any part of the United States or its possession so long as this contract or any similar agreement remains in force.

ADKINS SPEAKER

Illinois Legislative Deadlock Ended
With Harmony Move.

Springfield, Ill., Jan. 5.—Representative Charles Adkins of Bement was elected speaker of the Forty-seventh general assembly. The vote was 84 for Adkins against 54 for George W. Alschuler, the Democratic choice. The Republicans united on Adkins after forty-eight hours of wrangling filled with bitterness. Adkins is from Congressman William B. McKinley's district, and his selection is believed to have cemented the political friendship between Governor Deneen and Congressman McKinley, the head of the Illinois traction system, operating a network of interurban cars in Illinois.

Senator Dailey of Peoria offered a resolution calling for the appointment of a committee consisting of six senators to investigate the charges of bribery and corruption made against certain members of the senate who have been indicted for or confessed to bribery, and to report to the senate their findings and conclusions as to whether such senators should be expelled from the senate.

The resolution was adopted. Senator Holstlaw, who confessed to accepting a bribe to vote for Lorimer for United States senator and at whom the resolution is directly aimed, was not present at the opening of the senate session. Senator Pemberton, who is under indictment on charges of conspiracy, and Senator Broderick, under indictment on a charge of bribery, occupied their seats. The resolution affects these two members as well as Senator Holstlaw.

REVOLVER DUEL

Tragedy at South Bend Saloon Over
the Proprietor's Wife.

South Bend, Ind., Jan. 5.—One man will die and another was seriously injured in a revolver duel over a woman in a West End saloon. The police say the tragedy was due to the bartender paying too much attention to his employer's wife. The bartender, who will die from his wounds, is Steven Kozlar. He received three bullets in the temple and has been unconscious since. His employer, Frank Simon, who has a chance for recovery, has a bullet in the neck.

Packers Lose First Round.

Chicago, Jan. 5.—J. Ogden Armour and other indicted packers lost their first attack against criminal prosecution for violating the Sherman antitrust law when Judge Kohlsaat in the United States circuit court held the government had the right to dismiss its suit in equity against the National Packing company. This means that the indicted packers will be forced to go to trial on the indictments.

Victims of Impure Candy.

Gary, Ind., Jan. 5.—Cheap candy is believed to have caused the death of Modesta and Daniel Malloy, children of Daniel Malloy, a cement worker. The children were five and three years old, respectively, and they died suddenly within a few hours of each other after eating candy.

Caught at the Crossing.

Bluffton, Ind., Jan. 5.—Walter Shemer, aged twenty-two, was instantly killed when his buggy was struck by a fast Chicago & Erie train at a street crossing in Toosin. The horse was not injured.

INEXPLICABLE DELAY
CAUSED FATAL WRECK

Passenger Train Failed to Get
Out of Limited's Way.

Spokane, Wash., Jan. 5.—In a wreck in the Northern Pacific yards at Cheney thirteen lives are believed to have been lost. Ten or more persons were injured. The North Coast Limited struck the rear of a Burlington passenger train which was taking a sidetrack. Three coaches were wrecked. Five bodies have been recovered.

The Burlington train arrived in Cheney in plenty of time to make the siding. An unexplained delay of five minutes saw the cars still on the main line, however, with the North Coast coming at terrific speed down the middle of the track, approaching the yard. The engineer of the coast train applied the brakes, but was unable to get his train under control before it crashed into the rear of the Burlington at a speed estimated at forty miles an hour. The huge locomotive plowed through the standing train for three car lengths before it was stopped.

SENATOR ELKINS DEAD

Veteran West Virginia Statesman Succumbs to Long Illness.

Washington, Jan. 5.—Senator Stephen B. Elkins of West Virginia died at his home in this city at 12 o'clock last night. Sudden collapse following a long illness, caused death. The end was not unexpected, for the senator had been sinking for hours.

At his bedside were Mrs. Elkins, his two sons, Blaine and Richard Elkins, his daughter, Miss Katherine Elkins, and Henry Gassaway Davis, his father-in-law. Mr. Elkins had been sick for several months.

Senator Elkins had been in the United States senate since 1901, when he was elected by the unanimous vote of the Republican members of the West Virginia legislature. His present term of service would have expired on March 3, 1913. His death will probably mean one more Democratic member of the senate. He was born in Perry county, Ohio, Sept. 26, 1841, and was accounted one of the very rich men of the senate. He founded the town of Elkins, W. Va., and was interested in coal, timber and

He was regarded as one of the ablest leaders of the senate. He was chairman of the committee on interstate commerce, and his name is given to the act prohibiting rebating by railroad companies. He was known as a hard worker and was one of the well-informed members of the senate. His death marks the passage of another member of the old guard which was led by Senator Aldrich and Senator Hale.

Two Boys and a Gun.

Muncie, Ind., Jan. 5.—While Cash Johnson, aged seventeen, and Abner McLain, aged sixteen, were in the former's home Johnson shot McLain through the top of the forehead with a 32-caliber revolver. McLain died in a hospital. Johnson and his mother say the shot was wholly accidental and happened while the boys were cleaning the revolver.

He Threw Killed Himself.

Corning, N. Y., Jan. 5.—Nicholas Honness, a discharged New York Central telegraph operator, fired four bullets into the body of Daniel W. Dinan, superintendent of the Pennsylvania division of the New York Central. Superintendent Dinan will recover. His assailant, thinking that he had killed Dinan, fired a bullet into his own brain and died.

Strike Claims Fifth Victim.

Chicago, Jan. 5.—Fred Reinhardt, a special policeman, the fifth person slain in the strike of the garment workers, was shot to death while escorting two non-union workers to their homes from a clothing plant. The two non-union men declared that the policeman was shot from behind by strikers.
